NARRANGANSETT PIER.

A LATE SEASON OPENED WITH PROMISE.

AN ERA OF IMPROVEMENT AND PROGRESS BEGUN-NEW HOTELS AND COTTAGES-PERSONAL NOTES, Narragansett Pier, R. I., July 7 (Special) .- The sea son at this popular watering place is now fairly open, and the various hotels have profitable lists of guests. The cottages, of which the number increases each year. nearly all have been occupied for a week or more the Casino is open, and the bathing beach present an animated scene each day; so the Pier can be said The season have gotten fairly under way. the whole may be considered a little backward, and the hotel keepers are hoping that whatever they may have lost on this end may be made up to them on th

Narragansett Pier has, without doubt, taken on new lease of life. So the enthusiastic landowners believe, and the facts seem to back up their faith. Until this year the Pier has been a village of South Kingston. As in all similar cases the farmers of the back districts have opposed and voted down all projects for a systematic improvement of the Pier desiring to be taxed for the benefit of a certain locality without receiving any particular benefit. Accord ingly the Pier people worked an act through the Legislature dividing the town, as far as taxation goes, and in fact in all respects except representation in the The Pier portion of the town, oc-General Assembly. suppling the seacoast from Point Judith to Narragas sett Ferry, is now the District of Narragansett, with all the powers of a town. The district has voted to bond tiself for \$100,000, to be spent in improvements, such as new and better roads, sewers, fire apparatus, hydrants, etc. This movement is of vast important to Narragansett Pier and its visitors. Already the effect of the new dispensation is apparent. It is preposed at once to macadamize twelve miles of road from Point Judith to Boston Neck, at the northern extremity of the district, and work will begin within a month. It is expected that new villas will spring up all along the line of this new boulevard.

In line with the town's progressive spirit come great activity of private enterprise. The electric light now shines in the streets and the principal The corporation has just erected a fine building for its dynamos.

Waterworks will also be an assured fact within ninety days. A corporation has been formed for that purpose, and the preliminaries are now being ar-It is to be called the Wakefield Water Worls. There is plenty of good water available. The stand pipe will be crected on Tower Hill, which is high igh to give the hydrants considerable force. All the hotels will introduce the water, and the town will take a number of hydrants for the purpose of ex-

Air, and Mrs. Richard J. Dobbins are at their Ocean-ave, cottagy for the summer. They have named their cottage "the Tower."
Sir George M. Pullman and his family arrived at their Elberon cottage vesterday.
Mr. and Mrs. James G. Blaine, jr., and James G. Blaine, 3d, are at the Hotel Shrewsbury, above Sea Bright. What with water works, electric lights, a fire con pany, police, macadamized roads, the Casino, etc., the Narragansett Pier of 1859 will be a gay and progress-Ive place by the side of the primitive Pier of thirty odd years ago, when Uncle Esben Taylor first established the precedent of "taking boarders," at the little Narragansett House, which still has its small and select coterie of regular visitors. Then the guests who came to this wayside retreat had to travel eight or ten miles by stage from the Kingston, instead of rolling into the village in Pullman palace cars as they do to-day. Once in a while you will run across a gray-bearded old man who sighs for the freedom and unconventionality of the Pier's early days, but the bulk of the visitors prefer the comforts and pleasures of this modern summer capital.

The principal hotel improvement has been the recetion of the beautifully actistic hostelry called Green's Inn on the site of the old Southern Roll.

The pold Southern Roll.

The pold Southern Roll.

Among the recent hotel arrivals are the following: the West End Hotel.

Among the recent hotel arrivals are the following: the West End Hotel.

And Mrs. Dewitt J. Selfgman have rooms at the West End Hotel.

Isaa: V. Rice, president of the Missouri, Kansas and Texas Railroad Company, is at the Hollywood Hotel with his family.

Colonel A. B. De Freece and family, of New-York, are spending the season at the Howland Hotel.

Mr. and Mrs. Dewitt J. Selfgman have rooms at the West End Hotel.

Southern Union actors as they are the west End Hotel.

Among the recent hotel arrivals are the following: the West End Hotel.

The old Southern has been moved back and forms the annex of the new house. The idea of the building is the old English tavern in its best development, Hence the exterior is shingled, but in actistic designs; its verandas are wide; its rooms are low studded, and great oaken beams overhead add to the effect; great pen fire-places of rough stone, and floors of polished hard wood are an added attraction in the same line The grandfather of H. W. Greene, the proprietor, was a brother of General Nathaniel Greene, Washing ton's Lieutenant-General, and Mrs. Greene's grandmother was Mrs. General Greene's sister. Being of a historic family many ancient relics have come down them, and a clock one hundred and twenty-five years old, and a case of ancient family china, several cases of drawers, etc., are used to brighten the effect which the architect has striven for. Over one of the rough stone fire-places is the inscription: "Shall I not take my case in my inn?" The house contains fifty-five rooms. It is substantially built and meant to be open all the year round.

Mrs. Nancy K. Bishop, of Providence, has built two nice cottages on the ocean road at Scarborough Beach. Davis, of Providence, has also completed at elegant house in the same locality and is living in it. Mr. Hornblower, of Washington, is building a gambrel-roofed cottage on Central-st. Louis Sherry, of New York, the Casino caterer, is creeting a fine building at Earlscourt for a high class restaurant, it especially for private dinner parties. Some of the Casino stockholders don't altogether like this, but it will not probably have much effect on Casino patron-

The Casino, which is now fully completed, and is a very artistic building, is open and prosperous Lander's Orchestra discourses sweet music, and the Casino hops will soon come to be the chief events of Pier society. With the advent of the electric light, some improvements in the way of lighting have been made, notably in the use of colored lamps on the arch over the ocean road. The list of Casino subscrib includes these names of New York people: W. H. Kilvert, Frank Adams, John H. Henshaw, Edward H Rilvert, Frank Adams, John H. Henshaw, Edward H. Coster, Edward Livingston Coster, Luther A. Swopes, S. F., Johnson, Willard P. Ward, Austin Gunnison, Frances S. Kinney, Mrs. Vernon King Stevenson, Sr., T. B. Baidwin, Mrs. Wun. E. Garrison, Dr. Edward A. Smith, Dr. G. H. Wyncoop, Robert F. Sheperd, Philip S. Minton, Mrs. William Gonverneur Morras, Julian C. Shope, H. d'E. Wes on, Mrs. Bradley A. Fiske, Willoughby Weston, Mrs. J. Rogers, Charles T. Minton, O. D. Ashiey, Bertrand J. Perry, Marcus H. Taibot, Montague Marks, Howard Lapsey, John F. Shepard, Mrs. L. C. O'Donneil, Henry Rosers, Joremiah P. Robinson, C. C. Goffe, F. G. Ballard, Mrs. H. C. Lelkey, Theo. V. A. Trotter, T. Wolfe Tone, G. H. Jessup, Mrs. F. N. Shepard, Mrs. E. A. Buck, Elljah P. Smith, Dr. H. Clair Smith, the Misses Lekoy, Mrs. A. Starbuck, Mrs. Sengman, Mrs. E. Sengman, Mrs. C. Connelly, J. W. Mounton and Edgar Saitus.

Miss Porter, daughter of General Fitz John Porter, is a guest at the Revere, and Mrs. E. A. Buck, of New York, is at the Atlantic.

The Mound Hope House has a good list of guests and many rooms engaged, This heuse is justly celebrated for its table. The steward this year is E. F. Wyeth, of Eoston. The chef and his assistant are first class, being the same corps had at this house in 1886, Mr. Caswell tried to engage them last year but alled, and compratulates himself on having secured them for this season. Mr. Herbert Caswell is the general monzer, W. A. Patierson, of New York, is the cashier and Fred Underwood is the might clerk.

Admiral Davis and family are at the Mathewson, hut are soon to make a summer trip to Europe. Mrs. James A. Wright, of New-York, is a guest at the Atwood.

The beach is covered with tents, and bathers are very numerous. An expect hoatman patrols the breakers during the bathing hours.

Mr. J. A. Rogers, of New-York, is a guest at the Atwood.

The Fourth was a very dull day here, and what freworks were let off were furnished by individuals, Coster, Edward Livingston Coster, Luther A. Swopes,

rood. The Fourth was a very dull day here, and what here Fourth was a very dull day here, and what works were let off were furnished by individuals, tead of by subscription as on previous years. The shops under and about the Casino are open he a tempting array of wares. There is nothing ential that cannot be obtained in one of these

ractive bazars.

FERED THIS WEEK. The commer season at the Madison Square proto be the counterpart of the one five years ago when the heated term closed all the houses and left the smallest of all to furnish entertainment for a big city with its constant drift of strangers who come to the scaboard at this tiem of year. Only two Broadway theatres are now open, and on moderately cool or rainy nights these are sure to be well paironized. The records of the house show a profit for summer engagements, or Mr. Palmer would not have arranged to keep the theatre open on anything else than a rental basis, which is not the case with Miss Ellsler. Her stay is to continue for four and possibly six weeks, which will be devoted to "The Keepsake," unless it is thought best to produce still another play for her travelling repertoire

are still fighting each other vigorously and the cottagers and hotel guest; have the best and William Mestayer's novelty for next season be called "Twenty Maidens to One Dude." The Viennese Lady Fencers will be a feature of the en-

tertainment. Clergymen and teachers generally have become so impressed with the instructive value of the Scriptural panorama Jerusalem and the Crucifixion, which has taken the place of the long popular Merrimae and Monitor, at Fifty-ninth-st. and Madison-ave., that "The Long Branch Surf" this season.

Beach.

Mr. and Mrs. Blebard J. Dobbins are at their Ocean. being carried on for the production of "The Old Homestead," at the Academy on August 30, is conveyed in the statement that no less than four theatres are at present occupied by forces of carpenters and painter engaged on the work, namely the Fifth Avenue, Wallacks, Metropolitan Opera House and Niblo's. Beeides these M Philipoteaux is busy with a corps of artists at his own studio in Mott Haven, on the first act of the play, wheh is in representation of farm-life in Hampshire. The scene is in circular form, in fact, a perfect semi-cyclorama, on which are half painted and half built trees and shrubbery, farming implements, whole wheatfields, etc., etc., after the style that has made Ph'lipoteaux famous. The orama itself reaches a height of eighty-two feet, extending almost to the roof of the house over the stage, so that persons stiting even in the very front rows of the orchestra can obtain a view of the hills and country, a distance, apparently, of twenty miles. This scene is the first of the kind ever painted by Philipoteaux.

An excellent cast, large chorus, handsome costumes and artistic scenic effects will mark the return of the McCaull Opera Company at Wallack's, one week from to-morrow night, when Johann Strauss's "Prince Methusalem" will have its first production in five This opera has music in the "Waltz King's"

Colonel McCaull announces that he will revive "The Lady or the Tiger" before the expiration of his engagenent at Wallack's, the popularity of the opera being such that the last week of its run was one of the most successful of any during the production.

The following letter in reference to the condition of Bartley Campbell has been received by the Actors'

Office of State Homoepathic Asylum for the Insat Middletown, N. Y. July 2, 1888. B. A. Baker, Assistant Secretary Actors' Fund.

Your favor of 30th June is to hand, in-Dear Sir: Your favor of 30th June is to hand, in-closed, piease find receipted bill, and accept our thanks. Mr. Cumpbell is weak physically and remains in bed. He is eating and sleeping fairly, but is not strong enough sit up much. He does not talk much and his mind quite weak, although he is pleasant. Yours very truly, S. H. TALCOTT, M. D., Superintendent.

Mr. and Mrs. G. W. Morgan, of New-Fork, are new guests of Leland's Ocean Hotel.

Among the recent hotel arrivals are the following: At the West End Hotel-Amos J. Eno. J. T. Thompson, Mr. and Mrs. George W. Holland. Mrs. Sarah Lynch. Miss F. Spring, Colonel House, and which will be seen in this city next sea- J. Hayes Sadler, William P. Smithson, Henry Smith, Mr. son, is described as a unique terpsichorean concert. After a march described as "a triumphal entry of knives, forks and spoons, and gorgeous devices in cups, flagons and epergues," the ballet enters. First come half a dozen oysters (" property" ones) on the half shell, ice-cream, cherry and pistache and lemon and chocolate, by about twenty coryphees, follows. The ice-cream is succeeded by champagne see, danced by the coryphees. Following the champagne is "a qualifile dianolique" by six principal dancers, representing turkeys and lobsters. Cafe nore is represented by Mile. Qualitz and chartrense by Mile.

E. G. Gilmore is trying to arrange with Bolossy Kirally to open the season at Niblo's on August 13 instead of the 20th. Rehearsals will begin the latter part of the week. Bart of the week.

Bolossy Kiralfy has just received a cable dispatch from Carpezai and Levastre, principal artists of the Grand Opera in Paris, that their scene is finished and is now on the way. This scene is the first that these artists have painted for an American manager. The eighth week of "Nadjy" has just closed, and not even during the first weeks were the houses any larger. The Moorish construction of the Casino affords ample means of ventilation during the heated term, and the introduction of a "cooling machine" has been found a necessity by the management. One of the most charming resorts in town on warm evenings is the roof garden, and the promenade concerts after the opera are nightly attended by audiences of goodly proportions. Budolph Aronson's orchestra will interpret a series of Hungarian marches during the present week.

James o'Neil will not play anything but "Monte Cristo" the coming season, notwithstanding the report that he would try a new piece. George L. Smith, his manager the coming season, is having all new scenery and properties and costumes made, and says the production next season will be the best yet offered. There has been more historest felt this year in the celebration of the Battle of Getrysburg than in any year since the conflict. Philippoteany's great painting is no doubt doing nuch to hestine the American people vith rezard to that great event of the war, and Mr. Hill is now giving away to every visitor at the Cyclorane a memorial souvenly in the shape of an illustrated and topographical history of has just received a cable dispatch years, and it is supposed that the cottage's an open with favor upon old Neptune this season as well. Some new and startling bathing costumes have been introduced and these, doubtless, will be worn in due season. A bost patrol has been instituted, but accidents, either from drowning or any other cause, rarely occur at Newport. The Casino is now in full blast, the morning concert.

shape of an illustrated and topographical history of

GETHING READY FOR FOREIGN SERVICE. REPAIRING THE WARSHIPS BOSTON AND CHICAGO

handsomely cared for by the citizens, who have impred AT THE NAVY YARD. Secretary Whitney has given orders to each Chief of Bureau at the Navy Department at Washington to inform him of the carliest possible time when the new craisers Chicago, Beston and Atlanta may be completed for a foreign cruise. The Boston is at the Navy Yard, where she has been in commission for more than a year, and with a full complement of officers and crew on board under full sea pay. Some changes are now being made in her steering gear, but delay in completion for sea service is really due to the Ordnance Department, which is far behind in its work and for reasons which. The Tribune has fre-

quently stated—general inefficiency.

The Chicago is also at the Navy Yard, and is practically little nearer readiness for sea service than she was when she made her creditable trial trip in Novemher, and developed a speed of sixteen knots an hour and a horse-power considerably in excess of that required by contract. She has recently had her masts and rigging put in, and now all that she requires is her unfinished gans. When the Ordnance Department has finished its work upon her, all that will need to be done will be to put a crew and provisions on board

and get up steam and start away. The Atlanta has recently returned from a cruise in the West Indies, during which she made several steam trial; and tested her seaworthiness, all of which were reported by the officers to have given satisfactory results. When the Ordnance Board has had the gun ports renewed and made of larger dimensions than the old ones, which were torn to pieces by the recoil, and had the tracks relaid for the eight-inch guns, which were forn up because of being put down in such a decidedly unmerchanical way; and when a new propeller has been put on in place of the one which had two of the blades broken by going ashore, then will she be ready for squadron duty.

NERO EXCEEDS EVEN THE FALL OF BABYLON. The success of "Nero," at St. George's, mus peculiarly gratifying to Imre Kiralfy, who staked a lare rtune and his long-established reputation on that pendous production. Many experienced persons con-nected with amusements in this neighborhood doubted the success of such a costly undertasting, when they found that the weekly expenses, after the original investment for scenery, staging, electric lights and paraphernalia was made, would amount to over \$20,000. From the opening night the grounds have been crowded with the best class success of such a costly undertaking, when they found of people, and on several occasions even standing room has been difficult to obtain. When it is considered that ere are accommodations for nearly 20,000 people, the neasure of success attained can easily be computed The spectacle is of such signatic proportions, the number of people employed is so great, the effects are so brilliant and the facilities for reaching the grounds are so excellent that it is not stronge these results have been reached. chariot racing is one of the exciting features of The chariot racing the rivalry between the charioteers is interestical by the promise of a prize by Mr. Kiralfy to the winner of the racing, and the way they swing then dactes around the circle in their efforts to win shows hey are "out for the money." The ballet is even better than that of the "Fali of Bubylon," which made such a last season. Performances are given every evening, hit last season. Performances are given every evening.

SHIPLOADS OF TRAVELLERS. THE EUROPEAN EXODUS CONTINUES.

MORE THAN ONE PHOUSAND PASSENGERS SAIL ON THEIR PAVORITE STEAMERS. Over 1,000 passengers salled for Europe yesterday on the steamers which left this port. Among the ships were the Etruria, La Gascomie, the Werra and the City of Richmond, all favorites with ocean travellers. The Etruria, as usual, had her full complement of ummer tourists, the names on the passenger list numbernig nearly 500. The Cunard Line pier presented a brilliant spectacle of fashionable summer t did those of the various other lines, all being thronged with crowds of well-known people, who came to say farewell to their friends who sailed away and at the same time envy them the pleasures of the ocean breezes. Many prominent club and sporting men congregated on the French Line pier to bid adleu to J. B. Haggin, the owner of the famous California

WHAT THE PILGRIMS GOT TO EAT.

MEXICANS WHO TELL A STORY OF HARDSHIP ON THE BOLIVIA-A CASE FOR THE COURTS.

On the French steamship La Gascogne, from Havre, on her last trip to New-York, there arrived a large number of Mexican pligrims. They were a portion of an excursion party that left Mexico by way of this city to visit Roma and other European cities on a religious pilgrimage. The party included many prominent citizens of Mexico and representatives of the Church in that country. They tendered to the Pope the congratulations and good wishes of the Mexican people on the occasion of his jubilce. The Mexican Central Radicoad Company issued special tickets for the round trip and contracted with the Barrow Steam ship Company to carry the party from New-York City to Naples. Fifty of the pilgrims arrived here two weeks ago and at once went to their native country They came back at their own expense and not on the Bolivia, which carried them out. The Barrow Steamship Company began proceedings in the Supreme Court against the Mexican Central Radroad Company for breach of contract, claiming #890 52 damages, on the ground that the railroad company had failed to supply the number of people contracted for.

As soon as the first batch of pilgrims reached New-York, the agent of the Mexican Central Railroad received many complaints about the bad treatment they had received on board the Bolivia, which was twenty one days on the voyage. The papers in the suit had just been served on the railroad company when a party of thirty pligrims arrived on the La Gascogne. Kneeland, the lawyer of the defendants, obtained permission of Judge O'Brien to take the testimony of several pilgrims in the case before trial. The railroad company sets up the defence that the suit was begun before the steamship company had fulfilled its part of the contract; that the defendants paid for all the passengers they contracted for, as they never stated now many there would be; and, as a further and separate defence, that the steamship company did not furnish Spanish waiters and cooks as it agreed to do, that the food was bad and insufficient and that many of the pilgrims were seriously sick in con-

It was in support of the last statement that the testimony of two of the pilgrims was taken. Indacio Belordo, of the City of Mexico, and Zeferino Ynez, of Quatera Province, testified that there was not a person connected with the ship who could understand a word of spanish; that the food consisted of beans and maccaroni; that no meat was given them and that macearoni; that no meat was given them and that cheese and biscuit, which they could not eat, and coffee were served for supper; that they could not get better food even by paying for it and that the voyage was unnecessarily long. They both paid their fare by another line back to New-York, though they held tickets for the round trip, rather than suffer the hardships on the Bolivia.

A portion of the pilgrims are now at the Hotel America, at Fifteenth-st, and Irving place. Others are expected on the next French steamship.

WANTING TO LET THE SUITS DROP. GRANT & WARD'S RECEIVER UNABLE TO

PROVE FRAUD.

An important decision was rendered yesterday by Justice a the Supreme Court, Chambers, on an application made by Julien T. Davies, as receiver of Grant & Ward, dission to discontinue certain suits against William S. Warner, J. Henry Work and others, for the recovery of real estate alleged to have been purchased with the of real estate angular transactions with the "Napoleon of Finance," who is now in the State Prison.

In one of these suits it is sought to have the property No. 70 Fifth-ave., of which Warner is the owner, subjected to a lien under the judgment against him for & Ward. It is charged that Warner purchased this property with a portion of these moneys. In another suit, the property No. 77 Clinton place is involved. It is charged in the complaint that it was purchased with money received by Work in excess of what he had put into the firm of Grant & Ward, and fraud in this case into the arm of Grant & is also alleged. In both these cases Mr. Davies informed the court that as it was necessary to prove fraud beyond the shadow of a doubt, and all the evidence was purely ircumstantial, he did not think he could establish the

In a third suit, the object was to obtain a lien for the reditors of the collapsed firm on the property No. 61
Fifth-ave., which belongs to Warner. In this case Mr.
Davies claimed that it was impossible to succeed, as there
was no evidence to establish the truth of the allegations, and Justice O'Brien granted permission to discontinue it. In the other cases, however, in which larger amounts are involved, the Judge said that he would not take the responsibility of ending teem without trial, and denied

THE LAWYER WILL NOT RETURN THE BOOKS. The stock transfer book, stock ledger and stock certificate book of the Mineral Range Raifroad Company were ficate book of the Mineral Range Rainfoan Company placet in the hands of Charles W. Cass, a director of the road and a lawyer of Somerset County, New-Jersey, for the purpose of bringing suit againsts Henry S. Ives & Co. for bonds of the company allered to have been fraulthiently obtained, and against William N. Cromwell, the assignee of Ives & Co., for \$250,000 of the stock of the Hancock and Calumet Radicoad Company, said to have been bought by Ives & Co. with Mineral Range stock.

The lawyer claims a lien for professional services on these books. Before Justice O'Brien in the Supreme these books. Before Justice O Brien in the Supreme Court, Chambers, yesterday a motion was made to compel Cass to produce the books in order that an election of officers may take place on July 10. Mr. Cass claimed that he had a right to the books and further answered that they had been sent to Lawyer W. R. Shelby, at Grand Rapids, Michigan. He said that the election was to be held in order to carry out an arrangement between F. B. Loomts and the receiver of the road and others, on one side, and Ives & Co. and their assignce, on the other, for the purpose of placing Ives and his partner, G. H. Stayner, again in control of the roat. The judge intimated that under the discumstances the production of the books could not be ordered, but he reserved his decision. The North German Lloyd steamer Werra, carried

Harry Miner, the theatrical manager, has served a reply to the answer of Mrs. James Brown Potter, in his suit against her for \$2.838 40, which he claims to have advanced to her. He gives her credit for \$400 which, she savers, he owes her for services, reducing his claim to s2.408 40, but denies that she is entitled to \$10,000 dam-

THOSE MISMANAGED GIANTS.

A PROMISING WESTERN TOUR RUINED. ANOTHER CHANGE AT THIRD BASE PROBABLE-QUARRELLING AMATEURS.

The peculiar traits of the management of the New-York Club continue to crop out with painful regularity. The latest spasmodic burst of idiotic mismanage ment developed on Thursday at Detroit. The friends of the club hope that it will not develop again. New-York nine started West last Menday night with brighter prospects than it has ever had since the team organized. The club had been playing in splendld form for the previous ten days and under a different policy of management the followers of the nine became happy and confident that the players would make a good record during the remainder of the season. Gore had been laid off and Ewing was doing all the catching. The young pitchers had a rest, and Keefe and Walsh were alternating regularly in the pitcher's box. After winning three consecutive games from the Washington club at the Polo Grounds, the players packed their uniforms and bats and turned their faces westward for a fortnight's tour. John B. Day, the intelligent president of the club, has given his personal attention to the team of late, and he accompanied the players on the present trip. Mr. Day has had many earnest talks with the men during the last two weeks, and those talks seem to have had a good effect. Ewing, as captain, has also done his part of the work well, as well in fact as any other captain in the country. The Intention was to have Ewing catch in as many games as possible and to give all the pitchers, except Keefe and Welch, a rest.

When the nine landed in Detroit the players were confident and determined, and that is a necessary adjunet in a winning baseball nine. The two victories the Fourth, which the New-Yorkers won in such splendid style, revived the hopes of the friends of base ball in this city, as nothing else has done in a long time. It made the night of Independence Day bright and cheerful, and the report of many a firecracker was followed with a mental hurral for the Gianta, The Detroit club was clearly outplayed in both of those games, the New-Yorkers scoring eight runs to the world-champions' two. That people here should ex-pect another victory on Thursday was only natural. The reports of that third game, however, cast a great deal more gloom around than the light cast by the two victories of the day before. Weldman, an ex-Detroit pitcher, at present a member of the local club, expressed a desire to face his old companions again, and that desire was foolishly gratified. Weldman probably wished to show the Detroit club what a level they had released. The score was-Detroit 18, New-York 13. That jewel did not glisten any more brilliantly to the eyes of the Welverines than it did when It was cast out two years ago.

The Detroit men, from old associations, knew Weidman's style of delivery as well as he knew it himself. His tricklest curves were batted all over the field without apparent effort. The New-Yorkers also batted well, but the many hits only went to swell the batting record of the home players. New-Yorkers do not care for individual barting records; the records they peruse with interest are those made up from games won by the home club. Weldman may pitch a good game against some of the other nines, but not against Detroit. Even Weich or Keefe would not pitch a strategic contest, if pitted against the New-York Weeping over past blunders will not right them, but the Weldman-Detroit episode ought to be a lesson that Manager Mutrie will keep fresh in his mind during the remainder of the season.

A visit to the Polo Grounds last week would have onvinced any person that stinginess, at least, has nothing to do with the erratic record of the local League club. The management has certainly spent money with a lavish hand to strengthen the nine. s as liberal as any club in the country, and probably nore so. When the writer went up to the grounds on Thursday, several players were found lolling around and taking a few moments' practice whenever their idle fancy dictated. There were Foster, George, Crane, Murphy, Titcomb and others, who had been left behind when the club went West. These men are all drawing large salaries, and yet one of them (George) has played in a single championship game this year. The club may need them at any time, and consequently cannot afford to release them to other nines. The players seem content, and draw their salaries semimonthly with the case and grace of every-day players. The life of a baseball substitute is indeed a happy one. The New-York club probably pays as much money to its substitute players as some clubs pay for their whole organization. The management of the Brooklyn club is also liberal in its expenditures for promising baseball material. Outside of the Boston club there is probably no other nine in the country that shows forty per cent of the liberality of the two local clubs. Some people might ask what is the use of buying a \$50,000 locomotive, when you have not got a competent engineer to run the machine-but then some people want to know it all.

Recent reports from the Southwest seem to indicate that there is some in Denmark. Unless a speedy remedy is applied and the evil rooted out at once, baseball in Texas will not be a popular pastime much longer. John J. Daily, the old League umpire, who has been umpiring among the Texan clubs this year, returned to the city last week. Daily says that the present system of running professional baseball in the South is demoralizing in the extreme; that the gamblers are running some of the clubs to suit themselves; that players, managers and club directors are flirting with the fickle goddess Chance, and that if it is not stopped soon baseball in that section of the country will become a thing of the past. The writer knows that there are some reputable gentlemen in the Texas League and they owe it to themselves to take action immediately. Gamblers and blacklegs can run baseball in but one direction—into the ground. This was amply illustrated in this neighborhood several years ago. Daily also says that when he went South his railroad fare to Texas and return was promised him besides his salary. He was compelled to purchase his own return ticket. running professional baseball in the South is demor-

The expected rupture in the Amateur League has arrived at last. The trouble was delayed, but it was bound to come, as The Tribune pointed out last summer. One cannot have an amateur nine and at the same time pay stipulated salaries to certain of the players. The Amateur League, so called, tried to do this and, of course, failed. The intention at first was to have only amateur players on the teams, but pride and avariciousness caused the original resolve of the organization to be broken and employ regularly paid pitchers and catchers. In their efforts to defeat each other, paid players probably their efforts to defeat each other, paid players probably crept into other positions. The trouble culminated on Thursday night, when at a meeting of the Amateur Baseball League, the New-Jersey Athletic Club was expelled. The excuse for the expulsion was the violation of the organization's rules. It is claimed that the other clubs objected to a player named Mack, who was covering second base for the New-Jersey Athletic nine. The team was requested to mit Mack's name from its list of players and its refusal caused the expulsion. The New-Jersey club held the lead in the Amateur championship race.

Further changes in the New-York club are liable to take place at any minute. The management seem determined to put a winning club in the field, no matter what the cost. The change will again occur at third base. Whitney, the player recently secured from the Pittsburg club, has not given entire faction and a new third baseman will take his place in a day or two. Whitney has been weak at the bat and his fielding has also been anything but first class. The Jersey City club has a third baseman in Knowles. who has been doing splendid work in the Central League games, both as a batter, baserunner and third baseman. Both Messrs. Day and Mutrie have been watching Knowles's work closely of late, and that player will probably be covering third base for the player will probably be covering third base for the Giants before the present week is out. He is said to have started for Pittsburg to join the club last night. Either Whitney or Hatfield will be transferred to the Jersey nine to take Knowles's place. Whitney will probably the man to go. The Jersey. City club also desired the services of Crane, the local pitched. The deal was all but completed for the transfer, when Crane objected and refused to change his base. He was offered the same salary that he received in New York, but would not have it.

MANY DEATHS CAUSED BY HEAT. Of 905 deaths in the city last week, nearly 200 wers caused by diarrhocal troubles, due in a great measure to the Contactous diseases caused seventy-nine thirteen fewer than during the last week in June. At

seases during two weeks was obtained:

HE WAS CAUGHT WITH A SCRATCHED DOLLAR James G. Johnson, importer of jewelry, at No. 8 East Fourteenth-st., has been systematically robbed of god watches, diamond studs and rings, and could not discover watches, diamond studs and rings, and could not discover the thief. Detective Sullivan advised Johnson to mark some money and place it behind the counter. Yearerday a scratched silver deliar was put on a shelf and inside at ten minutes the money was gone. Joseph Lavelne, as fifteen, of No. 68 James-st., was searched and the marked dellar was found, but he doubted all, knowledge of the dollar was found, but he denied all knowledge of missing jewelry. Justice Gorman, at Jefferson Mar missing jewelry. manded Laveine into the custody of the detective
